

※Procurement plan may change

## The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Control materials and equipment	Office of Purchasing	PCM current differential relay unit	154 kV	15	Terminal
Control materials and equipment	Office of Purchasing	PCM current differential relay unit	77 kV	82	Terminal
Control materials and equipment	Purchasing Center	Cable fault detector unit		1	Unit
Control materials and equipment	Power System Engineering Center	Cable fault detector unit		4	Set
Control materials and equipment	Office of Purchasing	Server	Load dispatching control station system	1	Set
Control materials and equipment	Purchasing Center	Server	Oscillograph server	1	Set
Control materials and equipment	Purchasing Center	Server	Load dispatching control station system	4	Set
Control materials and equipment	Power System Engineering Center	Circuit breaker isolation relay unit	154 kV	1	Unit
Control materials and equipment	Purchasing Center	Circuit breaker isolation relay unit	275 kV	2	Unit
Control materials and equipment	Power System Engineering Center	Circuit breaker isolation relay unit	275 kV	10	Unit
Control materials and equipment	Power System Engineering Center	Circuit breaker isolation relay unit	77 kV	13	Unit
Control materials and equipment	Purchasing Center	Remote monitoring control unit	Maintenance information integration panel	7	Unit
Control materials and equipment	Power System Engineering Center	Remote monitoring control unit	Maintenance information integration panel	6	Unit
Control materials and equipment	Purchasing Center	Overcurrent relay equipment	Digital type	35	Unit
Control materials and equipment	Power System Engineering Center	Overcurrent relay equipment	Digital type	3	Unit
Control materials and equipment	Purchasing Center	Line selection relay unit	Accident follow-up type	5	Set
Control materials and equipment	Power System Engineering Center	Line selection relay unit	Accident follow-up type	29	Set
Control materials and equipment	Purchasing Center	Line selection relay unit	Communication type	2	Set
Control materials and equipment	Power System Engineering Center	Line selection relay unit	Communication type	45	Set
Control materials and equipment	Purchasing Center	Distance relay equipment	Digital type	26	Unit
Control materials and equipment	Purchasing Center	Power system monitor unit	Information source terminal	2	Set

## The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Control materials and equipment	Power System Engineering Center	Frequency load limiting relay unit		2	Unit
Control materials and equipment	Purchasing Center	Out-of-step isolation relay unit		1	Unit
Control materials and equipment	Purchasing Center	Transfer interruption unit		2	Set
Control materials and equipment	Power System Engineering Center	Power supply limiter relay unit		2	Set
Control materials and equipment	Purchasing Center	Power supply limiter relay unit		1	Set
Control materials and equipment	Purchasing Center	Bus protection relay unit	154 kV	1	Set
Control materials and equipment	Purchasing Center	Bus protection relay unit	500 kV	2	Set
Control materials and equipment	Power System Engineering Center	Bus protection relay unit	500 kV	2	Set
Control materials and equipment	Power System Engineering Center	Bus protection relay unit	77 kV single bus	14	Unit
Control materials and equipment	Power System Engineering Center	Bus protection relay unit	77 kV duplicated bus	1	Set
