

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Office of Purchasing	AG steel tower	22 kV	36,000	kg
Transmission materials and equipment	Purchasing Center	AG steel tower	33 kV	4,500	kg
Transmission materials and equipment	Office of Purchasing	AG steel tower	33 kV	57,831	kg
Transmission materials and equipment	Purchasing Center	AG steel tower	77 kV	700	kg
Transmission materials and equipment	Office of Purchasing	AG steel tower	77 kV	347,715	kg
Transmission materials and equipment	Office of Purchasing	AG steel tower	154 kV	57,600	kg
Transmission materials and equipment	Office of Purchasing	AG steel tower		169,000	kg
Transmission materials and equipment	Purchasing Center	Materials required for modification of AG steel tower	33 kV	20,000	kg
Transmission materials and equipment	Office of Purchasing	Materials required for modification of AG steel tower	77 kV	300	kg
Transmission materials and equipment	Purchasing Center	Materials required for modification of AG steel tower	154 kV	6,300	kg
Transmission materials and equipment	Office of Purchasing	Materials required for modification of AG steel tower		34,400	kg
Transmission materials and equipment	Purchasing Center	Materials required for modification of AG steel tower		91,081	kg
Transmission materials and equipment	Power System Engineering Center	Materials required for modification of AG steel tower		13,274	kg
Transmission materials and equipment	Office of Purchasing	Materials required for modification of AG steel tower	Low-lightness treatment	2,000	kg
Transmission materials and equipment	Power System Engineering Center	Materials required for modification of AG steel tower	Low-lightness treatment	3,262	kg
Transmission materials and equipment	Purchasing Center	Materials required for repair of AG steel tower		6,607	kg
Transmission materials and equipment	Office of Purchasing	MC steel tower	77 kV	197,883	kg
Transmission materials and equipment	Office of Purchasing	MC steel tower	154 kV	30,000	kg

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Office of Purchasing	MC steel tower	275 kV	97,000	kg
Transmission materials and equipment	Office of Purchasing	MC steel tower	Low-lightness treatment	13,000	kg
Transmission materials and equipment	Purchasing Center	Materials required for modification of MC steel tower		129,290	kg
Transmission materials and equipment	Purchasing Center	Materials required for repair of MC steel tower		3,000	kg
Transmission materials and equipment	Office of Purchasing	Concrete to be filled in MC steel tower	50 MPa (lightweight concrete)	63	m3
Transmission materials and equipment	Purchasing Center	Steel tower	Other steel towers	7,000	kg
Transmission materials and equipment	Purchasing Center	Materials required for modification of steel tower		10,140	kg
Transmission materials and equipment	Purchasing Center	Materials required for repair of steel tower		500	kg
Transmission materials and equipment	Purchasing Center	Steel tower fixture		140	Piece
Transmission materials and equipment	Purchasing Center	PFP pipe body	φ125	115	Piece
Transmission materials and equipment	Office of Purchasing	PFP pipe body	φ125	478	Piece
Transmission materials and equipment	Purchasing Center	PFP pipe body	φ150	399	Piece
Transmission materials and equipment	Office of Purchasing	PFP pipe body	φ150	93,437	Piece
Transmission materials and equipment	Power System Engineering Center	PFP pipe body	φ150	4,828	Piece
Transmission materials and equipment	Purchasing Center	UPFP pipe body	φ125	48	Piece
Transmission materials and equipment	Purchasing Center	UPFP pipe body	φ150	472	Piece
Transmission materials and equipment	Power System Engineering Center	UPFP pipe body	φ150	3,136	Piece
Transmission materials and equipment	Office of Purchasing	PFP pipe pillow	φ125	968	Piece

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Office of Purchasing	Intermediate connector for PFP pipe	φ125	289	Piece
Transmission materials and equipment	Power System Engineering Center	Intermediate connector for PFP pipe	φ150	140	Piece
Transmission materials and equipment	Power System Engineering Center	Different pipe connector for PFP pipe	φ150	20	Piece
Transmission materials and equipment	Power System Engineering Center	Flexible joint for PFP pipe	φ150	817	Piece
Transmission materials and equipment	Power System Engineering Center	Flexible joint for PFP pipe	φ150	8	Piece
Transmission materials and equipment	Purchasing Center	Simplified arrester	154 kV	48	Set
Transmission materials and equipment	Purchasing Center	Simplified arrester	77 kV	456	Set
Transmission materials and equipment	Purchasing Center	Simplified arrester		78	Set
Transmission materials and equipment	Office of Purchasing	Simplified arrester		84	Set
Transmission materials and equipment	Purchasing Center	Horn for line side		436	Piece
Transmission materials and equipment	Purchasing Center	Horn for ground side		373	Piece
Transmission materials and equipment	Purchasing Center	Airplane warning light		16	Unit
Transmission materials and equipment	Purchasing Center	Four-conductor spacer	Loose spacer	48	Piece
Transmission materials and equipment	Purchasing Center	Receiving fixture	55S	10	Piece
Transmission materials and equipment	Purchasing Center	Receiving fixture	65S	147	Piece
Transmission materials and equipment	Purchasing Center	Receiving fixture	75S	8,972	Piece
Transmission materials and equipment	Power System Engineering Center	Receiving fixture	75S	219	Set
Transmission materials and equipment	Purchasing Center	Receiving fixture	L	1,259	Piece

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Power System Engineering Center	Receiving fixture	L	528	Piece
Transmission materials and equipment	Power System Engineering Center	Receiving fixture		2,206	Piece
Transmission materials and equipment	Power System Engineering Center	Stand fixture	1.1 m	5	Set
Transmission materials and equipment	Purchasing Center	Stand fixture	1.5 m	118	Set
Transmission materials and equipment	Power System Engineering Center	Stand fixture	1.5 m	27	Set
Transmission materials and equipment	Purchasing Center	Stand fixture	1.7 m	19	Set
Transmission materials and equipment	Purchasing Center	Stand fixture	1.9 m	536	Set
Transmission materials and equipment	Power System Engineering Center	Stand fixture	3.2 m	4	Set
Transmission materials and equipment	Purchasing Center	Stand fixture	Hole-in anchor	543	Piece
Transmission materials and equipment	Power System Engineering Center	Stand fixture		1,800	Piece
Transmission materials and equipment	Power System Engineering Center	Terminator frame	Terminator frame	6	Unit
Transmission materials and equipment	Power System Engineering Center	Steel material for terminator frame		4,100	kg
Transmission materials and equipment	Purchasing Center	Transmission arrester	275 kV	51	Set
Transmission materials and equipment	Purchasing Center	Vibration-proof joint	φ150	228	Piece
Transmission materials and equipment	Purchasing Center	Suspension clamp		63	Piece
Transmission materials and equipment	Purchasing Center	Strain clamp		411	Piece
Transmission materials and equipment	Office of Purchasing	Strain clamp		66	Piece
Transmission materials and equipment	Purchasing Center	Wedge type anchor clamp		671	Piece

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Purchasing Center	Climb-prevention equipment		8	Set
Transmission materials and equipment	Office of Purchasing	Clevis		4,457	Piece
Transmission materials and equipment	Office of Purchasing	Clevis type suspension insulator	φ250	38,286	Piece
Transmission materials and equipment	Purchasing Center	Clevis type suspension insulator	φ250	204	Piece
Transmission materials and equipment	Office of Purchasing	Long-rod support insulator		2,283	Piece
Transmission materials and equipment	Purchasing Center	Long-rod support insulator		33	Piece
Transmission materials and equipment	Purchasing Center	Semi-conducting glaze long-rod V-suspension insulator		36	Set
Transmission materials and equipment	Purchasing Center	1 string suspension unit		282	String
Transmission materials and equipment	Purchasing Center	2 string suspension unit		156	String
Transmission materials and equipment	Office of Purchasing	2 string suspension unit		636	String
Transmission materials and equipment	Purchasing Center	1 string tension unit		3	String
Transmission materials and equipment	Purchasing Center	2 string tension unit	154 kV	735	String
Transmission materials and equipment	Office of Purchasing	Suspension unit fixture		823	Piece
Transmission materials and equipment	Purchasing Center	Concrete pole		1	Set
Transmission materials and equipment	Purchasing Center	Double torsional damper		559	Piece
Transmission materials and equipment	Purchasing Center	Prefabricated manhole	Main unit	2	Unit
Transmission materials and equipment	Power System Engineering Center	Prefabricated manhole	Main unit	14	Set
Transmission materials and equipment	Power System Engineering Center	Prefabricated manhole accessory	Prefabricated manhole intermediate block	203	Piece

※Procurement plan may change

The Main Procurement Plan Fiscal 2010

Classification	Contracting office	Article designation	Specification	Q'ty	Unit
Transmission materials and equipment	Purchasing Center	Manhole metal cover		156	Piece
Transmission materials and equipment	Purchasing Center	Preformed armor rod		152	Set
Transmission materials and equipment	Power System Engineering Center	V-suspension jumper		3	String
Transmission materials and equipment	Office of Purchasing	Ball socket type suspension insulator	φ250	5,951	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type suspension insulator	φ280	5,982	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type suspension insulator	φ320	60,060	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type suspension insulator	φ340	3,827	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type suspension insulator	φ380	648	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type salt resisting suspension insulator		63	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type salt resisting suspension insulator	φ250	20,316	Piece
Transmission materials and equipment	Office of Purchasing	Ball socket type salt resisting suspension insulator	φ320	1,056	Piece
Transmission materials and equipment	Purchasing Center	Snow free ring		99,100	Piece
Transmission materials and equipment	Power System Engineering Center	Neck block		108	Piece
Transmission materials and equipment	Purchasing Center	Temperature monitoring device and other equipment	Temperature monitoring device and other equipment	1	Set
Transmission materials and equipment	Purchasing Center	Compressive terminal board		6	Piece
Transmission materials and equipment	Purchasing Center	Compressive jumper sleeve		96	Piece
Transmission materials and equipment	Purchasing Center	Compressive anchor clamp		22	Piece
Transmission materials and equipment	Purchasing Center	Compression terminal		24	Piece
